

University of Missouri - Kansas City School of Computing and Engineering

Vision & Mission Statement

SCE Vision

- To become a valued urban school of computing and engineering.
- Signature professionally based education and research programs.
- Dynamic undergraduate and graduate population.
- Highly diverse faculty, staff and student body.
- Active engagement with it's city and region.

SCE Mission Statement

- To educate well-prepared professionals that can function in the workforce or within a research environment.
- To provide outreach opportunities for our students to grow in leadership and professionalism and to understand and solve community, national and global issues.
- To create a vibrant learning and campus life experience through innovative educational programs, industry interactions, student projects and interdisciplinary experiences.
- To share in the university's life and health sciences mission.
